SKILLS

- Python , Java
- Statistics
- Probability Concepts
- Machine Learning
- Problem-Solving
- Data analysis & visualization
- Team work & Leadership
- Strong Communication

EDUCATION

BACHELOR OF TECHNOLOGY

NIIT University

2020-2024

PROFILE

Likable and dedicated software engineer with handsome time of experience in a Machine learning and Data science domain. Eager to offer superb analytical and computer skills to help organization grow its client base. Dynamic and creative software developer with experience in producing robust code for high-volume companies.

EXPERIENCE

ROCK VS MINE PREDICTION

dec2021-jan2022

- This is a Machine Learning Project where I have made a model which will predict Rock or Mine underwater of Submarine by using its sonar signal. I have used the Logistic Regression Machine Learning algorithm in this project

SPAM MAIL CHECK

jan2022-feb2022

- This is a Machine Learning model which will tell you the mail you get is spam or not. For building this model I have used Logistic Regression Machine Learning Algorithm.
